

CHAKRIN EXIM PVT. LTD.

LABEL DESIGN

1) QUALITY SOLUTIONS DESIGNED TO MAKE YOU LOOK YOUR BEST

A label design is **a visual to deliver a product's details uniquely**.

While an ordinary looking label gives legal information about the product such as its date of manufacturing and ingredients used, a uniquely created label is an engaging design.

Our designers are well versed in label specifications, print technology, creating labels for product life extension, label economics, sustainable label design, matching the label with the package, flexible label and bioplastics. They also have knowledge of modified atmosphere label and barrier materials, food safety label standards and regulations, labeling compliance regulations, etc.

We create label designs for several products including –

- Food Products
- Beverage Products
- Health, Beauty and Wellness Products
- Apparel and Fashion Products
- Chemical Products
- Pharma products
- Electronic Products, etc.

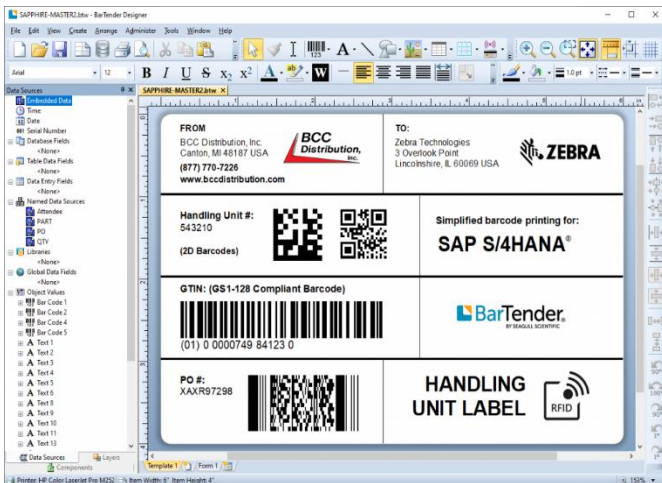

2) LABELING EQUIPMENT

LABEL PRINTER
